Education

Indian Institute of Information Technology Sonepat **Aug 2023 - 2027**
B.Tech in Computer Science (CGPA: 9.25 till 6th Semester) *Sonepat, Haryana*

Tagore Sr Sec School, Mahendergarh **2021 - 2022**
CBSE Class XII - 91.0% *Haryana, India*

Experience

Tech Mahindra **May 2026 - Jul 2026**
Software Development Intern (Agentic AI) *Remote*

- Engineered an AI-powered Incident Resolver Agent using Python, FastAPI, Streamlit, MongoDB and Azure OpenAI, supporting automated ticket resolution across **4 resolver queues** (Incident Resolver, L1, L2, and L3).
- Implemented exact-ID and similarity-based retrieval across **up to 5,000 incident records** with contextual follow-up queries and user-level ticket access controls.
- Designed an AI-guided troubleshooting workflow generating **4-6 resolution steps** and automatically creating or escalating unresolved tickets to the appropriate resolver queue.
- Built an admin dashboard covering **4 ticket repositories**, with ticket management, filters, CSV exports, audit logs, chat history and operational reports.

Projects

IntervAI | *MERN, OpenRouter, Razorpay, Multer, Recharts* | **GitHub** | **Live** **Jul 2026**
- Architected a full-stack AI interview platform implementing **2 authentication methods** - JWT and Google OAuth.
- Configured OpenRouter across **3 AI workflows**: resume analysis, role-specific questions & AI-based answer evaluation.
- Orchestrated a **6-stage interview workflow** covering resume upload, analysis, question generation, timed speech interaction, performance scoring and detailed reporting with interview history.
- Secured Razorpay payments with 3-step transaction handling: order creation, payment verification and automatic credit updates.

SnapCart | *MERN Stack, TypeScript, Next.js, Redux, Socket.IO* | **GitHub** | **Live** **Dec 2025 - Feb 2026**
- Developed a full-stack grocery delivery platform with real-time order notifications, live delivery tracking.
- Configured order-specific chat using Socket.IO with **6+ custom events** and geospatial delivery-partner discovery within a **10 km radius**.
- Integrated Stripe Checkout and signed webhooks for secure online payments, alongside cash-on-delivery and **4-digit OTP-based** delivery confirmation.
- Using Leaflet-based maps, OpenStreetMap reverse geocoding and Gemini-powered chat assistance generating **3 contextual quick replies** then deployed the Next.js app on Vercel and Socket.IO server on Render.

Technical Skills

Languages: C, C++, Python, JavaScript, TypeScript, SQL
Frontend: HTML, CSS, React.js, Next.js, Redux Toolkit, Tailwind CSS, Framer Motion
Backend: Node.js, Express.js, FastAPI, REST APIs, Socket.IO, JWT Authentication, NextAuth
AI & LLM: LangChain, LangGraph, AI Agents, RAG (Retrieval-Augmented Generation)
Databases: PostgreSQL, MongoDB
Tools & Platforms: Git, GitHub, Postman, Vercel, Render, Docker
Coursework: Data Structures & Algorithms, Object-Oriented Programming, Machine Learning, Artificial Intelligence, Computer Networks, Database Management Systems, Operating Systems

Certifications

- Completed Graph Theory Camp of AlgoUniversity (Certificate) **Feb 2026**
- Google Cloud Computing Foundations and Gold League status (Certificate) **Oct 2023**

Achievements

- GATE qualified **Year 2026**
- First Place (India) National Round, WCHL 2025 by ICP (Certificate) **Sept - Oct 2025**
- Secured the third academic position (Certificate)
- Solved 800+ Data Structures and Algorithms problems across LeetCode, CodeChef, and Codeforces.
