Education

Indian Institute of Information Technology Sonepat **Aug 2023 - 2027**
B.Tech in Computer Science (CGPA: 9.25 till 6th Semester) *Sonepat, Haryana*

Tagore Sr Sec School, Mahendergarh **2021 - 2022**
CBSE Class XII - 91.0% *Haryana, India*

Experience

Tech Mahindra **May 2026 - Jul 2026**
Software Development Intern (Agentic AI) *Remote*

- Engineered an AI-powered Incident Resolver Agent using FastAPI, MongoDB, LangChain, LangGraph, and Azure OpenAI, supporting automated ticket resolution across **4 resolver queues** (Incident Resolver, L1, L2, and L3).
- Implemented exact-ID and similarity based retrieval across **up to 5,000 incident records** with contextual follow up queries and user level ticket access controls.
- Built an administrative dashboard with **JWT** authentication, **RBAC**, ticket management, CSV exports, audit logs, chat history, unmatched-query tracking, and operational reports.

Projects

SnapCart | *MERN Stack, TypeScript, Next.js, Redux, Socket.IO* | **GitHub** | **Live** **Dec 2025 - Feb 2026**

- This is a grocery delivery platform, supporting customer, admin, and delivery partner workflows with **real-time** order management.
- Engineered **multi-device** Socket.IO connectivity with 6+ custom events, order specific AI assisted chat, and delivery partner discovery within a **10 km radius**.
- Integrated **Stripe** Checkout with signature-verified webhooks for reliable payment processing, supporting online payments, cash-on-delivery, and OTP-based delivery verification.
- Implemented Leaflet-based interactive maps, **OpenStreetMap** reverse geocoding for address resolution and Gemini-powered chat assistance with **3 contextual quick replies**.

IntervAI | *MERN, OpenRouter, Razorpay, Multer, Recharts* | **GitHub** | **Live** **Jul 2026**

- This is a full-stack AI mock-interview platform, enabling personalised Technical and HR interview practice.
- Integrated **OpenRouter GPT-4o-mini** with PDF.js and Multer to analyse uploaded resumes, extract skills/projects, generate five role-specific questions, and score responses for confidence, communication, and correctness.
- Developed a timed, voice-enabled interview experience using the **Web Speech API** for text-to-speech and speech-to-text, with detailed analytics, question wise feedback, interview history, and downloadable PDF reports.
- Implemented secure Google sign-in with Firebase, **JWT** based HTTP only cookie authentication, credit based interview access, and Razorpay payment integration with server-side **HMAC** signature verification.

Technical Skills

Languages: C, C++, Python, JavaScript, TypeScript, SQL
Frontend: HTML, CSS, React.js, Next.js, Redux Toolkit, Tailwind CSS, Framer Motion
Backend: Node.js, Express.js, FastAPI, REST APIs, Socket.IO, JWT Authentication, NextAuth
AI & LLM: LangChain, LangGraph, RAG, AI Agents
Databases: PostgreSQL, MongoDB
Tools & Platforms: Git, GitHub, Postman, Vercel, Render, Docker
Coursework: Data Structures & Algorithms, Object-Oriented Programming, Machine Learning, Artificial Intelligence, Computer Networks, Database Management Systems, Operating Systems

Certifications

- Completed Graph Theory Camp of AlgoUniversity (Certificate) **Feb 2026**
- Google Cloud Computing Foundations and Gold League status (Certificate) **Oct 2023**

Achievements

- GATE qualified **Year 2026**
- First Place (India) National Round, WCHL 2025 by ICP (Certificate) **Sept - Oct 2025**
- Finalist in Odoo India hackathon (Certificate) **Aug 2025**
- Ranked 3rd academically in Semester 5 (Certificate)
- Solved 800+ Data Structures and Algorithms problems on LeetCode and CodeChef
